

YUROK TRIBE ENVIRONMENTAL PROGRAM

PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

FOR: Tsurai Village Properties

LOCATED IN: Trinidad, California 95570

***APNs: 042-091-05, 042-102-39, 042-102-40, 042-102-41,
042-102-42, and 042-111-03***

PREPARED FOR:
Yurok Tribe
190 Klamath Blvd
Klamath, CA 95548

DATE:
September 28, 2016

PREPARED BY:
Suzanne Fluharty, PhD
Environmental Specialist
Yurok Tribe Environmental Program
PO Box 1027
Klamath CA 95548
707-482-1822

Signatures of Environmental Professionals

The following Environmental Professionals performed this Preliminary Phase I ESA that does not fully conformance with ASTM Standard Practice E 1527-13 and AAI Standards. It uses the ASTM standards as a framework and offers a summary of findings from a site visit, interview with the principal current owner and initial review of the Historic Environmental Records. It is intended for internal use within the Yurok Tribe only.

The following individual(s) meet the qualifications for individuals completing or overseeing all appropriate inquiries, and possess sufficient specific education, training, and experience necessary to exercise professional judgment to develop opinions and conclusions regarding the existence of environmental conditions on the property. Any work completed on this ESA by an individual who is not considered an environmental professional was completed under the supervision or responsible charge of the environmental professional.

EXECUTIVE SUMMARY

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM E1527-13 at the Subject Properties, located on Pacific Ocean frontage, in the City of Trinidad, California within the Ancestral Territory of the Yurok Indian Tribe. This assessment did not reveal any ASTM Recognized Environmental Conditions (RECs) or Historic Recognized Environmental Conditions (HRECs) associated with either hazardous materials or petroleum or petroleum bi-products in connection with the Subject Properties, APNs: 042-091-05, 042-102-39, 042-102-40, 042-102-41, 042-102-42, and 042-111-03.

The following report outlines the procedures used during this Site Assessment, the physical and historical findings, and the present uses of the property.

1.0 INTRODUCTION

The Yurok Tribe Environmental Program (YTEP) has prepared this Phase I Environmental Site Assessment (Phase I ESA) on the Tsurai properties (14.13 total acres), located south of Wagner and Edwards Streets, in the City of Trinidad, California (hereafter referred to as the Site, or Subject Property). Figure 1 Parcel Map is included below to show the general area and parcel locations. This Phase I ESA was prepared for the exclusive use of the Yurok Tribe located in Klamath, California and the United States Environmental Protection Agency (US EPA) Region 9 Brownfields Program.

This Phase I conforms to the principals of ASTM E 1527-13 "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" (ASTM, 2013).

This report is organized as recommended in ASTM E1527-13.

1.1 Purpose

The Purpose of this Phase I ESA is to identify Recognized Environmental Conditions (RECs) associated with the Subject Property. RECs are defined by ASTM as the presence or likely presence of any hazardous substance or petroleum products on a property under conditions that indicate an existing release or a material threat of release of any hazardous substances and petroleum products even under conditions in compliance with law.

This report will include listings of historic RECs if applicable. Historical RECs are environmental conditions which, in the past would have been considered RECs, but which may or may not be considered RECs currently.

RECs do not include de minimis conditions that generally would not be subject to any enforcement action if brought to the attention of an appropriate agency.

1.2 Detailed Scope of Work

This Phase I ESA conforms to the principals of work described in ASTM E1527-13.

1.3 Significant Assumptions

It is assumed that the groundwater flow direction on the vicinity of the Subject Property is westward toward the Pacific Ocean based on sloping topography in the vicinity of the Subject Properties.

1.4 Limitations and Exceptions

"No environmental site assessment can wholly eliminate uncertainty regarding the potential for the recognized environmental conditions in connection with a property. Performance of this practice is intended to reduce, but not eliminate, uncertainty regarding the potential for

recognized environmental conditions in connection with the property” (ASTM, 2013). The information included in this report is based on professional opinions from our field reconnaissance and visual observations of the Subject Property and our review and interpretation of available historic information as described in this report.

1.5 Special Terms and Conditions

No special terms or conditions are related to this investigation.

1.6 User Reliance

This report was prepared for the sole and exclusive use of the Yurok Tribe located in Klamath, California and the USEPA Region 9 Brownfields Program. The scope of work performed in this investigation may not be appropriate to satisfy needs of others. Any use of this document and findings as at the sole risk of said user.

Figure 1 Parcel Map (Subject Properties highlighted on green)

2.0 SITE DESCRIPTION

2.1 Location and Legal Description

The Subject Properties are the combined six parcels (042-091-05, 042-102-39, 042-102-40, 042-102-41, 042-102-42, and 042-111-03) that together comprise approximately 14.13 total acres located at latitude 41.0582690 by longitude -124.1441780. A Property Tax Map Report is included in Appendix H that shows boundaries for the Subject Properties and neighboring properties, addresses, parcel identification numbers, and other data typically used in property location and identification such as survey pins.

2.2 Site and Vicinity General Characteristics

The properties sit on a south facing bluff extending from sea level at the Pacific Ocean to 132 ft. above sea level at the upper edge of the properties. They are vacant, lightly wooded lots transversed by several public trails that travel from the city streets (Edwards and Wagner) of Trinidad to allow access to the ocean beaches.

2.3 Current Use of the Properties

The properties are currently vacant lots that contain a traditional Yurok Indian Village that is maintained by the Tsurai Ancestral Society (TSA).

2.4 Description of Structures, Roads, Other Site Improvements

There are currently no structures or roads into the properties, however it may be accessed by several trails.

2.5 Current Use of Adjoining Properties

The Subject Properties are primarily face lots of the Pacific Ocean with the exception of a spur that runs eastward along the Parker Creek riparian zone and ending along the Trinidad Scenic Drive. The adjoining properties are all zoned urban residential. These include two adjacent properties to the west APN 042-091-03 and 042-091-09 and adjacent properties to the east including APN 042-102-45, 042-102-30, 042-102-047, 042-102-49, 042-102-25, 042-102-26, 042-102-35, 042-102-52 along Wagner Street. The Humboldt North Coast Land Trust has easement for a 15 foot wide pedestrian trail that gives access through the Subject Properties, to the ocean beach from Wagner Street. The Land Trust also owns adjacent parcels 042-131-008 and 042-111-009 for the public use that are zoned urban residential but are held as undeveloped, lightly forested properties. The properties to the south-east of the Subject Property are APNs 042-131-007, 042-111-008, and 042-111-007 with single family residences that are zoned urban use. The Properties beyond the contiguous boundaries are urban residential and State of California, Humboldt County, and City of Trinidad parks.

3.0 USER PROVIDED INFORMATION

3.1 Title Records

The Yurok Tribe is currently in process with the City of Trinidad for transfer of the Subject Properties' ownership, but is working in good faith that the properties are owned by the City. Therefore a title report has not been ordered.

3.2 Environmental Liens or Activity Use Limitations

A search for Environmental Liens was ordered and there are no Environmental Liens or Activity and Use Limitations on file for the Subject Properties. EDR report for this is found in Appendix A.

3.3 Specialized Knowledge

No specialized knowledge was acquired regarding the Subject Properties other than they contain the site of a traditional Yurok village with several springs and creeks that are still in use for drinking water and cultural activities of Tribal Members and ancestors of the Tsurai village inhabitants.

3.4 Commonly Known or Reasonably Ascertainable Information

It is commonly known that repeated vandalism has occurred on the Subject Properties over the last 50 years, including illegal tree removal, dumping, camping of vagrants, and the destruction and theft of Yurok cultural items.

The beach area directly below the Subject Properties is commonly known and referenced by both names, Indian Beach and Home or Old Home Beach.

3.5 Valuation Reduction for Environmental issues

The intention of this document is to evaluate the potential impacts of REC's on Tribal Lands within the Yurok Ancestral Territory. Any reduction in value of the property is unknown and therefore not relevant to this report.

3.6 Owner, Property Manager and Occupant Information

The properties are currently vacant and owned by the City of Trinidad, however the upkeep and maintenance of Tsurai, a traditional Yurok Village site on the properties is in the care of the Tsurai Ancestral Society (TAS), a non-profit organization made up of descendants of the inhabitants of Tsurai Village. In addition, the Coastal Conservancy holds an easement for access through the Subject Properties due to their close proximity to the Pacific Ocean.

3.7 Reason for Performing Phase I ESA

YTEP, user of this report, indicated that the reason for performing a Phase 1 ESA is to ensure that contamination at the Subject Properties does not threaten public health and the environment. The Yurok Tribe has selected this property to be evaluated under the US EPA Section 128(a) Tribal Response Program.

4.0 RECORDS REVIEW

4.1 Standard Environmental Record Sources

YTEP has contracted with Environmental Data Resources (EDR), a company that specializes in the acquisition and compilation of local, state, and federal environmental records, to acquire the required records. EDR searched the Subject Properties and surrounding area for standard environmental records as required by ASTM E1527-13. A complete listing of the databases searched and the radius searched are included in the EDR Radius Map Report, provided in Appendix C.

There were no mapped sites of environmental contaminants found in a search of available ("reasonably ascertainable") government records on the target properties. One site, the residence of Duane Cox at 408 Wagner St is adjacent to and on a higher elevation than the Subject Properties and has a 500 gallon underground storage tank for leaded fuel within approximately 135 feet of the Properties. There are no reported issues or associated leaks, however it presents a possible source of contamination if problems arise in the future.

Other sites listed in the EDR Radius Map report are unlikely to have a negative impact on the Subject Property due to distance from the Subject Properties or through being at a lower elevation than the Subject Properties except for APN 042-111-03 that forms a north running spur that Parker Creek flows through. The creek has the potential to transport contamination from upslope through the media. Of possible concern would be if the underground fuel tanks for the Trinidad Chevron station at 201 Main Street were to become compromised and leak fuel into the water course, or any sort of emergency spill along Highway 101 or along the Scenic Drive where the creek passes underneath them through the highway culvert system.

4.2 Additional Environmental Record Sources

Axel Lindgreen III, member of the Tsurai Ancestral Society reported in an interview on June 8, 2016 that the streams and creeks running through the Subject Properties often smell of sewage and thought that the ocean beach commonly known as Home Beach had on occasion been closed by Humboldt County Department of Health and Human Services. The County website was viewed and their Water Quality Test Results were downloaded. They record that at least once, the Public Health Threshold for Total *Coliform*, *E. coli*, and *Enterococcus* was exceeded. An excerpt is provided below and the database in entirety is located in Appendix J.

There are no known septic sources associated with the Properties so it can be reasonably assumed that the contaminant is being transported by surface waters from upslope and travels across the Properties to the beach below.

Location	Date	Total Coliform	Coliform Exceeds Standard	E. coli	E. coli Exceeds Standard	Enterococcus	Enterococcus Exceeds Standard
Old Home Beach	10/19/2010	6488*	Yes	1354	Yes	>24196	Yes

4.3 Physical Setting Sources

According to the Physical Setting Source Summary, included in the EDR Radius Report for the Subject Properties, the Subject Properties are within the 100-year and 500-year Federal Emergency Management Agency (FEMA) flood zones and have an elevation range from approximately sea level to 294 feet above mean sea level. The topography in the area around the Subject Property generally slopes steeply to the south toward the Pacific Ocean. The nearest stream shown on the USGS topographic map is Parker Creek which roughly flows through the Subject Property that forms the north-east spur, APN 042-111-03 and creates the eastern boundaries between adjacent properties 042-131-08 and 042-111-08. In addition several springs emerge on the Subject Properties and flow south onto the beach to discharge into the Pacific Ocean.

4.4 Historical Use Information on the Property

Information in this section of the report is based on acquisition and review of various historical sources, including historic aerial photographs, historic topographic maps, and interviews with local officials.

4.4.1 EDR Historic Aerial Photographs

The following photographs were located by EDR and included in their Aerial Photo Decade Package available in Appendix K.

- 1956 This aerial shows the main streets of Trinidad laid out with the primary development to the east of Trinity Street, which runs due north-south as an artery off Main Street that emerges from Highway 101 that angles across the photo's upper right corner. The Subject property is primarily wooded with some clearing evident along Edward and Wagner streets and on the south-east adjacent property. Three possibly four trails appear to offer access from Edward and Wagner Streets into the Properties. Within the Properties themselves there appear to be two or three smaller clearings with possible structures. The graininess and deep shadows on the photo make details difficult to see.
- 1964 This photo appears to be over exposure which makes details impossible to differentiate, however the Subject properties appear wooded with little change from the 1956 photo.
- 1974 The under-exposure and extreme granular nature make details impossible to differentiate. The Subject Properties appear to remain undeveloped, wooded land.
- 1977 The under-exposure, heavy shadows, and extreme granular nature make details difficult to differentiate, however the Subject Properties appear to have been cleared of trees and the wooded vegetation.

- 1983 This aerial is out of focus and only the gross layout of the City of Trinidad and the ocean are visible.
- 1989 The angle of the photo plane appears oblique and the photo itself out of focus. The Subject Properties appear to be undeveloped.
- 1993 This photo is in sharp focus and main trail from the base of Trinity Street is clearly visible along with the adjacent beach directly south of the Subject Properties. Along the beach 6 possibly 7 streams are visible emerging from the wooded Subject Properties. The larger of these, the furthest to the right (East) in the photo is Parker Creek that flows through the center of north-south spur properties after it crosses under Highway 101.
- 1998 This aerial is out of focus and poor quality.
- 2005 This color photo shows the Subject Properties to be wooded, undeveloped properties with 2 primary trails that run from Edwards Street to the ocean beach. An arc of the trail that lies behind the houses along Wagner Street is visible. It appears that possibly 4-5 streams are flowing from the Properties into the ocean.
- 2009 This photograph is very similar to the 2005 photo with the exception that the most western train from Edwards Street appears to have been closed and overgrown.
- 2010 The Subject Properties appear unchanged in this photo from the 2009 photograph.
- 2012 The Subject Properties appear unchanged in this photo from the 2010 photograph.

4.4.2 Other Historic Photographs

A 2003 Area of Trinidad, CA digital color orthophoto, provided by the California State Coastal Conservancy shows the boundaries and easement lines of the area around and including the Subject Properties. Two trails are marked along with the center line of Parker Creek, one of 5 streams that flow onto the ocean beach adjacent to the Subject Properties. It is included in Appendix I.

In addition, the Bancroft Library at University Berkeley's online collection of historic photographs was searched and the following photographs were found and included in Appendix D.

- 1920 Oct. Liza Lindgren Trinidad Head, photograph I0006437A.

This shows one of the ancestors of the Tsurai Ancestral Society's descendants.

- 1920 Oct. Georgia Lindgren - Daughter of Liza Lindgren & her Children, photograph I0006438A.
This shows ancestors referenced by the Tsurai Ancestral Society.
- 1920 Oct. Trinidad Head, photograph I0006441A.
This photograph is taken from the upper boundary of the bluff directly adjacent to the Subject Properties.
- 1920 Oct. South of Trinidad Bay, photograph I0006442A.
This picture shows a fence along the left foreground and what appears to be a structure beyond.

4.4.3 Historic Topographic Maps

These are included in Appendix E.

- 1945 The topographic lines on this map represent a sharp rise in elevation across the Subject Properties from the ocean to the south to the northern property boundary along Edwards Street. Wagner Street has not be shown and it can be assumed that it was undeveloped at this time. Parker Creek is shown flowing approximately $\frac{1}{4}$ mile on the east side of Highway 101 before crossing under the highway and entering the Subject Properties.
- 1952 Wagner Street is shown on this map. All other details of the Subject Properties remain the same as in the 1945 map.
- 1966 This map shows the increased development of the area around the Subject Properties including the presence of the Memorial Lighthouse at the base of Trinity Street. The Subject Properties remain undeveloped.
- 2012 Structures and development details have been removed from this map. The Subject Properties remain unchanged.

4.4.4 Historic City Directories

Historic city directory data was not available with coverage for the Subject Properties and include the nearest street, Edwards Street listing only. All listings lie on the north side of the street, across from the Subject Properties.

4.4.5 Sanborn Fire Insurance Maps

Historic Sanborn Fire Insurance Maps were not available with coverage for the Subject Property. Documentation is included in Appendix G.

4.5 Historical Use Information on Adjoining Properties

The properties adjacent to the north are urban residential properties. Historically, the surrounding properties remained lightly developed until 1993, when the City of Trinidad experienced a growth period of significant development of housing, infilling the previously lightly utilized city blocks. The land to the south remains open beaches and adjoining property to the east have remained wooded with scattered residences.

4.6 Data Failure

Historical records tracking the Subject Property date back to the 1945 topographic map. Therefore there are no data gaps.

5.0 SITE RECONNAISSANCE

5.1 Methodology and Limiting Conditions

The Subject Property was inspected by Suzanne Fluharty, PhD of the Yurok Tribe Environmental Program on June 8, 2016. Trinidad Mayor, Dan Berman escorted Dr. Fluharty along with other Yurok staff to tour the Properties. Photographs from the Site inspection are included in Appendix I.

Limiting Conditions—general limitations included the steep terrain and the shrubby, wooded nature of the properties. However, it was low tide so the major paths were walked along with views upslope of the properties from the ocean beach. The weather was clear and offered no physical constraints.

5.2 General Site Settings

Beginning at the upper slope of the Properties along Edwards Street, the curbed street had weep holes for street drainage that allowed storm water and other discharge to flow onto the Subject Properties. The Property is steeply sloped, dropping approximately 450 feet to the Pacific Ocean. It is wooded with lush understory of shrubbery and other brushy growth that would obscure any ground contamination. However, it did not appear stressed, damaged, or otherwise impacted by any source. No power poles, transformers, or other equipment appear to service the Properties. The YTEP Field Inspection Check List is available in Appendix B.

Three primary public pathways give access through the Subject Properties. 1) The Axel Lindgren Memorial Trail that begins on Edwards Street at the site of the Historic Lighthouse; 2) the 15 feet wide Wagner Street Trail, owned by the North Coast Land Trust that begins between two properties (APNs 042-102-45 and 042-102-30) on Wagner Street and follows the bluff line eastward until it joins the third trail; 3) the Parker Creek Trail that travels south from the Scenic Drive through the subject properties (APNs 042-111-03 and 042-102-39) along Parker Creek to its outlet on the ocean beach.

5.3 Exterior Setting

No structures are present within the Subject Properties; no observations are possible for either the exterior or interior settings.

5.4 Interior Observations

No structures are present within the Subject Properties; no observations are possible for either the exterior or interior settings.

6.0 INTERVIEWS

6.1 Interviews with Owners and Manager

The Subject Properties are owned by the City of Trinidad and managed by its current City Manager, Dan Berman. The Tsurai Ancestral Society, who are caretakers of the Properties, are asking for transfer of the Properties from the City of Trinidad to the Yurok Tribe as part of a settlement in a law suit brought against the City for negligence in protecting the traditional village, a cultural resource for the Tribe. On June 8, 2016 Mr. Berman called a meeting with all interested Yurok Staff to discuss the properties and visit the site. When asked regarding the presence of any past or current environmental contaminants, Mr. Berman stated that he knew of none. He did expand to say that had been several times that illegal dumping had occurred at the west end of the Properties but that city staff, and at City expense had cleaned them up. Present were:

- Yurok Cultural Resource Management- Frank Myers and Bob McConnell,
- Yurok Planning Department- Peggy O'Neil and Nicole Sanders,
- Yurok Roads- Joe James,
- Yurok Environmental Program- Suzanne Fluharty,
- Tsurai Ancestral Society- Sarah Lindgren Trip, and
- City of Trinidad- Dan Berman.

A copy of the notes from the meeting is located in Appendix B.

6.2 Interviews with Occupants

The Subject Properties are undeveloped with no structures or housing present, therefore no occupants were available for interviews.

6.3 Interviews with Local Government Officials

The Subject Properties are within the local government jurisdiction of the City of Trinidad who also own the properties. See 6.1 Interviews with Owner and Managers.

7.0 FINDINGS

The assessment has not identified revealed any environmental contamination with the exception of the following:

- Occasional de minimis illegal dumping has occurred and been removed by the City staff.
- Historic septic failures have contaminated the Trinidad Harbor waters and the local beaches.

8.0 OPINION

8.1 Recognized Environmental Concerns and Historic Recognized Environmental Concerns:

Based on information obtained from this investigation, it is my opinion that the following findings would likely remain de minimis and not rise to the level of regulatory enforcement and for this reason these conditions should rise to the level of Recognized Environmental Concerns (RECs).

- Illegal dumping of household and construction materials at the western portion of the Subject Properties.
- Septic detections of bacteria and other waterborne pathogens at levels above the Humboldt County Public Health Threshold for recreational beaches occur below the Subject Properties and probably originate above the properties, as such, no regulatory enforcement would be subject on the Subject Properties.

8.2 Opinion Regarding Additional Appropriate Investigation:

The *absence* of contamination at the Subject Properties, based on the RECs and HRECs outlined in section 8.1, support the opinion of this environmental professional that *no* addition appropriate investigations be conducted. There is however, what appears to be an environmental and public health threat from the septic contamination of the springs and creeks associated with the Subject Properties and their use as domestic drinking source water as well as their cultural beneficial uses. Although outside the scope of this report, I recommend additional water testing be conducted to determine the location of the contaminant source(s) so that clean-up and remediation can occur and the threat terminated.

Qualifications of the environmental professionals that prepared this report are included in Appendix L.

9.0 CONCLUSIONS

We have performed a Phase 1 Environmental Site Assessment in conformance with the scope and limitations of ASTM E 1527-13 at the Subject Properties, located in Trinidad, California. Any exceptions to, or deletions from, this practice are described in Section 2 of this report.

Although this assessment has revealed repeated events where excessive levels of bacteria have resulted in Public Health closure of the beaches in the area of the Subject Property including Old Home Beach, adjacent to the Property, no evidence of recognized environmental conditions in connection with the property were discovered.

10.0 DEVIATIONS

There were no significant deviations from ASTM E 1527-13.

EDR Environmental LienSearch™ Report

The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

DEED EXHIBIT

RECORDING REQUESTED BY
AND RETURN TO:
Mayor
City of Trinidad
P.O. Box 390
Trinidad, California 95570

RECORDED AT REQUEST OF
City of Trinidad
1989 6473
DATE 4/4/89 TIME 1:15
STEPHEN A. STRAWN
HUMBOLDT COUNTY RECORDER (12)
By M. Strohman DEPUTY
FEE NONE

DEED

I. Whereas, the State of California, acting by and through the State Coastal Conservancy (hereinafter known as the "Conservancy"), is the owner of certain real property located in the County of Humboldt, State of California; and

II. Whereas, the Conservancy desires that the property be transferred to the City of Trinidad (hereinafter known as "Grantee") in consideration of the amount of two hundred and fifty thousand dollars (\$250,000.00), appropriated to the State Coastal Conservancy from the Environmental License Plate Fund pursuant to Chapter 1633, Statutes of 1988, in accordance with the authority provided in California Public Resources Code Section 31354; and

III. Whereas, on November 4, 1988, pursuant to California Public Resources Code Section 31107, the Conservancy requested the Director of General Services (hereinafter known as "General Services") to transfer fee title to the property to the Grantee for conservation and public access purposes subject to an easement to preserve scenic open space, protect public access to the ocean shoreline, and protect certain Native American natural and archeological resources;

NOW, THEREFORE, The State of California hereby grants to Grantee all of the State of California's right, title and interest in and to the property described in the attached Exhibit "A" (the "Property") and incorporated herein by this reference, subject to the following easement:

1. The State of California hereby reserves an easement in gross and in perpetuity over the entire Property for conservation purposes, including the preservation of scenic open space and of certain Native American natural and archeological resources, and the right to construct and maintain public access to the shoreline over trails within the easement area.

06473

2. No development, as defined in California Public Resources Code Section 30106, attached as Exhibit "B" and incorporated herein by this reference, shall occur or be allowed on the Property, except for the construction and maintenance of public access trails to the shoreline.

3. This easement shall run with and burden the Property, and all obligations, terms, conditions, and restrictions imposed herein shall be deemed to be covenants and restrictions running with the land and shall benefit and bind the Grantor, the Grantee, and their respective successors and assigns, and shall be effective regarding uses of said land from the date of its recordation.

4. In the event that any easement provision of this deed is held to be invalid or becomes unenforceable for any reason, no other provision of this deed shall be thereby affected or impaired.

5. Any act or any conveyance, contract, or authorization, whether written or oral, by the Grantee, which uses or would cause to be used or would permit use of the Property contrary to the terms of this easement shall be deemed a breach thereof. The Conservancy may bring an action in court necessary to enforce this easement including, but not limited to, injunction to terminate the breaching activity and to force the restoration of all damage done by such activity, or an action to enforce the terms and provisions hereof by specific performance. Any forbearance on the part of the Conservancy to enforce the terms and provisions hereof in the event of a breach shall not be deemed a waiver of its rights regarding any subsequent breach.

NOTARY PUBLIC IN AND FOR THE STATE OF CALIFORNIA

Exhibit "A"

That real property situated in the City of Trinidad, County of Humboldt, State of California, described as follows:

TRACT ONE:

PARCEL ONE:

Parcel 3, as shown on that certain Parcel Map No. 143 filed in the office of the County Recorder of Humboldt County, California, on November 10, 1972, in Book 2 of Parcel Maps at Page 50.

PARCEL TWO:

A non-exclusive right of way for ingress and egress for passenger vehicles, pedestrians and other public utilities for domestic purposes only, over, upon, across and within the 40 foot right of way as shown on the Parcel Map mentioned in Parcel One above which lies with the boundaries of Parcel One and Parcel Two as said Parcels are shown on said Parcel Map.

PARCEL THREE:

A non-exclusive right of way for ingress and egress for passenger vehicles, pedestrians and other public utilities for domestic purposes only over the 40 foot right of way as shown on the Parcel Map referred to in Parcel One above and as shown on the Record of Survey by John C. Olsen which survey is on file in the office of the County Recorder of Humboldt County, California, in Book 22 of Surveys, Page 61.

EXCEPTING from said Parcel Three that portion thereof lying within Parcel Two.

PARCEL FOUR:

A non-exclusive right of way, 40.00 feet in width, for ingress, egress, for passenger vehicles, pedestrians and public utilities, for domestic purposes only, the centerline of which is described as follows:

BEGINNING at a point that bears North 41 degrees 59 minutes East, 314.65 feet from the Southwest corner of Section 24, Township 8 North, Range 1 West, Humboldt Meridian, said point being on the Westerly line of former Highway 101;

thence North 68 degrees 10 minutes West 180.0 feet;

thence West, 40.00 feet;

thence South 67 degrees 15 minutes West 126.95 feet;

thence South 78 degrees 26 minutes West 141.44 feet;

thence South 29 degrees 00 minutes West 193.43 feet;

thence South 49 degrees 41 minutes 30 seconds West 131.87 feet;

thence North 87 degrees 43 minutes West 278.61 feet, as reserved in the deed dated February 25, 1966 executed by Ray W. Walker and wife to Belcher Abstract & Title Company, a corporation, and recorded in Book 877 of Official Records, Page 473 under Recorder's File No. 5542, Humboldt County Records, and as reserved in the deed dated October 9, 1967 executed by Ray W. Walker and wife to Breene Murphy, et al, and recorded October 27, 1967, in Book 939 of Official Records, Page 274, under Recorder's File No. 15277, Humboldt County Records.

continued...

06473
PARCEL FIVE:

A non-exclusive right of way, 20.00 feet in width, for ingress and egress, for passenger vehicles, pedestrians and public utilities, for domestic purposes only, the centerline of which is described as follows:

COMMENCING at the intersection of the common corners to Sections 23, 24, 25 and 26, Township 8 North, Range 1 West, Humboldt Meridian;
thence South along the Section line between Sections 25 and 26, a distance of 486.0 feet to the U.S. Meander Line;
and thence North 65 degrees 00 minutes West along said last mentioned line 506.2 feet to the true point of beginning;
thence leavings said U.S. Meander Line, North 15 degrees 00 minutes West 140.3 feet;
thence North 15 degrees 00 minutes East 110.00 feet, as reserved in the deed dated February 26, 1966 executed by Ray W. Walker and wife to Belcher Abstract & Title Company, a corporation, and recorded in Book 877 of Official Records, Page 473 under Recorder's File No. 5542, Humboldt County Records.

PARCEL SIX:

A right of way over the 40-foot road, as provided in deed to Kirkpatrick and Wagner recorded in Book 251 of Deeds, Pages 90 and 92, being the same as conveyed in deed from Carl Langford et al to Ray W. Walker and wife and recorded January 29, 1947, in Book 3 of Official Records, Page 429 under Recorder's File No. 907, Humboldt County Records.

EXCEPTING FROM SAID Parcel Six that portion thereof lying within Parcel One above described.

TRACT TWO:

Lots 20 and 21, as shown and numbered on the Official Map of Trinidad, filed in the County Recorder's Office of Klamath County, California, on October 2, 1871, and now on file in the Recorder's Office of the County of Humboldt, State of California, and further defined in the deeds by Town Trustees under Townsite Act.

The undersigned grantors hereby further grant to grantee any and all of their rights, including the reversionary rights, in the deed to the Trinidad Civic Club recorded May 14, 1948, in Book 47 of Official Records at Page 68, under Recorder File No. 4865, Humboldt County Records.

continued..

TRACT THREE:

Those portions of Lots 1, 4 and 5 of Trinidad, according to the survey made by J.S. Murray dated July 11, 1871, and on file in the office of the County Recorder of Humboldt County, California, and being a portion of Sections 23 and 26 in Township 8 North, Range 1 West, Humboldt Meridian, described as follows:

PARCEL ONE:

BEGINNING at the Northwest corner of said Lot 5 of Trinidad, thence along the Northerly extension of the West line of said Lot 5, North 0 degrees 22 1/2 minutes West 23.0 feet, to the South line of Edwards Street, as shown on the record of survey for Ray W. Walker by John C. Olson, Licensed Surveyor, on file in the office of the County Recorder of Humboldt County, California, in Book 22 of Surveys, Page 61; thence North 88 degrees 50 minutes East 345.5 feet; thence South 4 degrees 28 1/2 minutes East 34.68 feet to the centerline of a 40-foot wide right of way, as shown on said last mentioned survey; thence along said centerline, the following five courses and distances;

North 81 degrees 41 1/2 minutes East 233.01 feet;
 North 19 degrees 37 1/2 minutes East 183.25 feet;
 North 50 degrees 39 1/2 minutes East 35.25 feet;
 North 50 degrees 39 1/2 minutes East 75.0 feet, and
 North 81 degrees 24 1/2 minutes East 77.5 feet, more or less to the centerline of Parker Creek, as shown on said last mentioned survey; thence Northerly along the centerline of Parker Creek to the Southeast corner of the parcel of land conveyed to W.F. Loveless and wife, by deed recorded July 8, 1939, under Recorder's File No. 3188, Humboldt County Records;

thence continuing Northerly along Easterly line of said Loveless parcel and along the centerline of Parker Creek to an angle point in the East line of said Loveless parcel;

thence leaving said Parker Creek, North along the East line of Loveless parcel, 170 feet, more or less, to the Southwesterly line of the former State Highway 101;

thence Southeasterly along said Southwesterly line to the most Northerly corner of the parcel of land described as Parcel One in the deed from Ray W. Walker and wife to Belcher Abstract & Title Company, a corporation, recorded April 1, 1966 in Book 877 of Official Records, Page 473, under Recorder's File No. 5542, Humboldt County Records;

thence along the exterior boundaries of said Belcher Abstract & Title Company, a corporation, parcel, the following three courses and distances:

South 643.6 feet;
 South 64 degrees 32 minutes West 581.5 feet; and
 South 150.7 feet to the U.S. Meander Line;
 thence along said U.S. Meander Line, North 85 degrees West, 365.1 feet to the West line of said Lot 5 of Trinidad;
 and thence North 0 degrees 22 1/2 minutes West 325.04 feet to the point of beginning;

EXCEPTING THEREFROM Parcel 3 as shown on Parcel Map No. 143 on file in the office of the County Recorder of said County in Book 2 of Parcel Maps, Page 50.

continued...

PARCEL TWO:

A non-exclusive right of way for ingress and egress, for passenger vehicles, pedestrians and public utilities, for domestic purposes only, over the 40-foot right of way referred to in Parcel One above, and as shown on the record of survey made by John C. Olson, which survey is on file in the office of the County Recorder of Humboldt County, California in Book 2 of Surveys, Page 61.

EXCEPTING FROM said Parcel Two, that portion thereof lying within Parcel One.

PARCEL THREE:

A non-exclusive right of way, 40.00 feet in width, for ingress, egress, for passenger vehicles, pedestrians and public utilities, for domestic purposes only, the centerline of which is described as follows:

BEGINNING at a point that bears North 41 degrees 59 minutes East 314.65 feet from the Southwest corner of Section 24, Township 8 North, Range 1 West, Humboldt Meridian; said point being on the Westerly line of former Highway 101;
 thence North 68 degrees 10 minutes West 180.0 feet;
 thence West 40.00 feet;
 thence South 67 degrees 15 minutes West, 129.95 feet;
 thence South 78 degrees 26 minutes West, 141.44 feet;
 thence South 29 degrees 00 minutes West 193.43 feet;
 thence South 49 degrees 41 minutes 30 seconds West 131.87 feet;
 thence North 87 degrees 43 minutes West 278.61 feet, as reserved in the deed dated February 25, 1966 executed by Ray W. Walker and wife to Belcher Abstract & Title Company, a corporation, and recorded in Book 877 of Official Records, Page 473, under Recorder's File No. 5542, Humboldt County Records, and as reserved in the deed dated October 9, 1967 executed by Ray W. Walker and wife to Braene Murphy, et al, and recorded October 27, 1967 in Book 939 of Official Records, Page 274, under Recorder's File No. 15277, Humboldt County Records.

PARCEL FOUR:

A non-exclusive right of way, 20.00 feet in width, for ingress and egress, for passenger vehicles, pedestrians and public utilities, for domestic purposes only, the centerline of which is described as follows:

COMMENCING at the intersection of the common corners to Sections 23, 24, 25 and 26, Township 8 North, Range 1 West, Humboldt Meridian;
 thence South along the section line between Section 25 and 26, a distance of 486.0 feet to the U.S. Meander Line, and thence North 65 degrees 00 minutes West along said last mentioned line 506.2 feet to the true point of beginning.
 thence leaving said U. S. Meander Line North 15 degrees 00 minutes West, 140.3 feet;
 thence North 15 degrees 00 minutes East 110.00 feet, as reserved in the deed dated February 25, 1966, executed by Ray W. Walker and wife to Belcher Abstract & Title Company, a corporation, and recorded in Book 877 of Official Records, Page 473, under Recorder's File No. 5542, Humboldt County Records.

continued...

Public Resources Code Section 30106

[30106. Development

"Development" means, on land, in or under water, the placement or erection of any solid material or structure; discharge or disposal of any dredged material or of any gaseous, liquid, solid, or thermal waste; grading, removing, dredging, mining, or extraction of any materials; change in the density or intensity of use of land, including, but not limited to, subdivision pursuant to the Subdivider Map Act (commencing with Section 66410 of the Government Code), and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition, or alteration of the size of any structure, including any facility of any private, public, or municipal utility; and the removal of harvesting of major vegetation other than for agricultural purposes, kelp harvesting, and timber operations which are in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511).

As used in this section, "structure" includes, but is not limited to, any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electrical power transmission and distribution line.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 12/09/2015 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the State Water Resources Control Board Leaking Underground Storage Tank Information System.

A review of the LUST list, as provided by EDR, and dated 03/14/2016 has revealed that there are 8 LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, and dated 03/14/2016 has revealed that there is 1 UST site within approximately 0.25 miles of the target property.

Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 3 CUPA Listings sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: N/A
Date Made Active in Reports: 04/15/2016	Last EDR Contact: 04/05/2016
Number of Days to Update: 10	Next Scheduled EDR Contact: 04/18/2016
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: N/A
Date Made Active in Reports: 04/15/2016	Last EDR Contact: 04/05/2016

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/13/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/06/2016	Telephone: 703-603-8704

Number of Days to Update: 135	Next Scheduled EDR Contact: 07/18/2016
	Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: 800-424-9346

Number of Days to Update: 10	Next Scheduled EDR Contact: 08/01/2016
	Data Release Frequency: Quarterly

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 03/07/2016	Source: EPA
Date Data Arrived at EDR: 04/05/2016	Telephone: 800-424-9346

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016
Number of Days to Update: 34	Next Scheduled EDR Contact: 07/11/2016

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 04/05/2016	Last EDR Contact: 03/30/2016

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/09/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/02/2016	Telephone: (415) 495-8895

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 09/10/2015	Source: Environmental Protection Agency
Date Data Arrived at EDR: 09/11/2015	Telephone: 703-603-0695
Date Made Active in Reports: 11/03/2015	Last EDR Contact: 05/25/2016
Number of Days to Update: 53	Next Scheduled EDR Contact: 09/12/2016
	Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board's review found that more than one-third of the region's active disposal pits are operating without permission.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 07/30/2013

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

USGS TOPOGRAPHIC MAP

Target Property Map:	5602246 TRINIDAD, CA
Version Date:	2012

East Map:	5601328 CRANNELL, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Target Property County
HUMBOLDT, CA

FEMA Flood
Electronic Data
YES - refer to the Overview Map and Detail Map

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property
TRINIDAD

NWI Electronic
Data Coverage
YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data:*

Search Radius: 1.25 miles
Status: Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Mesozoic
System: Cretaceous
Series: Upper Mesozoic
Code: uMze(decoded above as Era, System & Series)

GEOLOGIC AGE IDENTIFICATION

Category: Eugeosynclinal Deposits

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

No detail available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish & Game

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RESEARCH SUMMARY

The following research sources were consulted in the preparation of this report. A check mark indicates where information was identified in the source and provided in this report.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Yurok Tribe were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

Certification # 8D3B-4A80-B992

UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 8D3B-4A80-B992

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☒ Library of Congress
- ☒ University Publications of America
- ☒ EDR Private Collection

The Sanborn Library LLC Since 1866™

Limited Permission To Make Copies

Yurok Tribe (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

The EDR Property Tax Map Report

EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.

Thank you for your business.

Please contact EDR at 1-800-352-0050
with any questions or comments.

Legend

<http://humboldt.gov/1696/Water-Quality-Test-Results>

All units are in are in MPN/100 ml. MPN = "most probable number".

State water quality standards for bacteria in recreational waters are not to exceed:

Total coliform = 10,000 MPN/100ml

E. coli (a fecal coliform) = 400 MPN/100 ml

Enterococcus (E. faecalis) = 104 MPN/100 ml

*Fecal coliform to total coliform ratio exceeds 0.1, and the total coliform count exceeds 1,000 MPN

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDUCATION

- ***Doctorate of Philosophy in Environmental Sciences*** 2008
Oregon State University, College of Science
Majors: Applied Anthropology; Botany and Plant Pathology
- ***Masters of Arts in Interdisciplinary Studies*** 2003
Oregon State University, Graduate College
Majors: Applied Anthropology; Botany and Plant Pathology; Speech Communication
- ***Bachelors of Arts, cum laude in Liberal Studies*** 2000
Oregon State University, Liberal Arts College
Minor in Speech Communication

JOB RELATED TRAINING

- USET Very Small Water Systems Course 2015
United South and Eastern Tribes, INC.; 12.0 CH
- Incident Command System 100, 200, 300, 400, 700, 800 2014
Federal Emergency Management Institute
- Natural Resource Damage Assessment 2014
Northwest Environmental Training Center
- Hazardous Waste Operations and Emergency Response Trained 2011, 2012, 2013, 2015
Northern California Safety Consortium
- Linking Nutrient Pollution & HABs: State of the Science & EPA Actions 2013
U.S. EPA Watershed Academy
- Phase I & Phase II Environmental Site Assessments 2013
ASTM International Technical & Professional Training; 2.1 CEU
- US EPA Tribal Pesticide Inspector Workshop 2011, 2012
Inter Tribal Council of Arizona, Inc and USEPA Region Nine
- ESRI ArcGIS Certified- 121 Training Hours 2010 - 2011
- Wetland Permitting March 2000
Portland State University School of Extended Studies/ Continuing Ed.
- Issues Framing and Moderator Training Workshops August 1999
Portland Community College and Oregon State University Extension Service

ORGANIZATIONS & COMMITTEES

- **National Tribal Toxics Council- US EPA Region 9 Representative**
Advances toxics management policies and programs, consistent with the needs, interests, and unique legal status of American Indian Tribes, Alaska Natives, and Native Hawaiians
- **Regional Tribal Operations Committee Pesticide Workgroup- Member**
Assists EPA in meeting trust responsibility, strengthening Tribal environmental and public health programs, and enhancing responsiveness by information exchange between Tribes and EPA
- **Watershed Stewards Project (WSP)- Advisory Board Member**
Works to conserve, restore, and enhance anadromous watersheds for future generations by linking education with high quality scientific practices; CA Conservation Corps & AmeriCorps
- **Klamath Fish Health Assessment Team (KFHAT)- Fish Kill Response Team Member**
Provides early warning and coordinated response to a non-hazardous materials fish kill event in the anadromous portion of the Klamath River basin.
- **Yurok Land Management GIS Workgroup -2010 Participant Member**
Facilitates GIS capabilities within the Yurok Tribe, use of the comprehensive Yurok GISDatabase, and knowledge of the new and ever advancing Geospatial Technologies.

PROFESSIONAL EXPERIENCE

- **Environmental Specialist Yurok Tribe**

2009 - current

- *Principal Investigator of U.S. Environmental Protection Agency, National Center for Environmental Research Science to Achieve Results Grant, Climate Change Impacts to Yurok Resources: Identifying, Assessing and Adapting to Changes in Water and Aquatic Resources, Food Security and Tribal Health Impacts, # RD-83560401-0; 2015-20118.
- *Co-Principal Investigator and Project Field manager of U.S. Environmental Protection Agency, National Center for Environmental Research Science to Achieve Results Grant, Understanding the Cumulative Affects of Environmental and Psycho-social Stressors that Threaten the Pohlik-lah and Ner-er-ner Lifeway: The Yurok Tribe's Approach # RD-83370801-0; 2009-2014
- *Oversees all aspects of collection, processing, and analysis of field samples up to transport to the appropriate laboratory in order to meet grant objectives.
- *Assists with the environmental monitoring and research for resource management, population dynamics, pesticides, toxicology, and risk assessment.
- *Maintains and updates tribal GIS database on pesticide applications and monitoring within the Yurok Indian Reservation and preparing community notices.

- **Ethnobotanist Coquille Indian Tribe**

2002 - 2009

- *Completed botanical surveys and environmental inventories with management recommendations for maintenance, re-introduction, and restoration of important traditional plant species and habitats.
- *Mediated collaboration to achieve pragmatic goals incorporating both specific cultural and economic tribal need within Bureau of Land Management mandates.

- **Instructor**

- Linn-Benton Community College**

- Science and Technology Division*

9/2007 - 6/2009

- *Lecture and laboratory for General Biology 101; emphasis on development of scientific theories of evolution and classification of life on Earth; morphological adaptation of structures and functionality.

- Oregon State University**

- Mark Hatfield Marine Science Center*

Summer 2006

- *Co-taught seminar course in Native American Estuarine Resources
 - *Consulted with Confederated Tribes of Siletz to develop course materials and appropriate interpretation of historic material culture.

- Anthropology Department /Extended Campus*

9/2005 - 6/2006

- *Designed and taught on-line course Natural Resources and Community Values; environmental communication and interactions between stakeholder/government agency management of public lands

SELECT PAPERS/ PRESENTATIONS

- *Cummulative Assessments and Tribal Subsistence* 2010
Paper co-authored with Dr. Kathleen Sloan. Presented at National Tribal Science Forum. National EPA-Tribal Science Council and the Grand Traverse Band of Ottawa and Chippewa Indians.
- *Practical Applications for Botanical Education in Native American Traditional Ecological Knowledge.* 2008
Paper presented. Society of Economic Botany 49th Annual Meeting. Duke University, Durham, NC.
- *One Tribe and Its Environment: What can an investigation of culture add to resource planning?* 2007
Paper presented. Crossing Boundaries: The 9th Annual Environmental Conference. University of Oregon
- *Environmental History of Euphoria Ridge; A Case Study of Ethnobotany in Traditional Resource Management.* PhD Dissertation. Environmental Sciences Program. Oregon State University. Documents 3 different cultures' traditional resource use across time at one site in Oregon's Southern Coast. 2007
- *Euphoria Ridge: camas and root digging, cultural plants, and historic landscape.* 2006
Presentation and workshop. Coquille Indian Tribe 10th Annual Cultural Preservation Conference: Cultural Preservation on the South Coast; Ten years in Review. Mill Casino, North Bend OR.

LOUISA MCCOVEY

PO BOX 551 ♦ Hoopa, CA 95546 ♦ 530.784.7581 ♦ louisadebrose@gmail.com@gmail.com

SUMMARY

Committed to and has vested interest in the protection and enhancement of the environment of the Yurok Indian Reservation.

Entire, 16 year, work career involved in natural resource protection in the Klamath-Trinity River basin.

Appropriate education and work experience combination for the Environmental Director position.

Experience in every aspect of tribal environmental program operations:

- Grant Writing, Administration, Reporting
- Environmental Assessment Writing
- Collecting & Interpreting Environmental Data
- Budget & Workplan Development
- Supervising Environmental Staff
- Environmental Public Outreach
- Interacting With Tribal, Federal & State Government Officials

COMPUTER SKILLS

Fifteen (+) years of experience working on computers including the utilization of the following programs/software:

- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- Adobe Acrobat
- Adobe Photoshop
- Adobe Illustrator
- Adobe Dreamweaver

EXPERIENCE & WORK HISTORY

Summers	Fisheries Technician, <i>Yurok Tribe</i>
1998-2001	Trapped and counted outmigrant salmonids at the rotary screw trap (when it was located in Weitchpec, CA), counted seals at the estuary in Klamath, CA.

Summers 2002-2003	Fisheries Technician, <i>Hoopa Tribe</i> Trapped and counted outmigrantsalmonids in fyke nets on Hoopa Reservation streams and tagged fish at the Lewiston Dam in Lewiston, CA.
Summers 2003-2005	Environmental Intern, <i>Hoopa Tribe</i> Environmental field work, water quality data collection and download, illegal dump inventory, first grant successfully funded.
2006-2014	Environmental Planner II, <i>Hoopa Tribe</i> Successfully submitted grant applications, developed workplans, budgets, administered and completed workplan tasks and submitted reports (quarterly and final) for the following projects/programs: · Methyl-Mercury in Macro-invertebrates, Bureau of Reclamation, 2006 · Illegal Dump Cleanup, California Integrated Waste Management Board, 2006 · Wetlands Program Development, USEPA, CWA §104(b)(3), 2007-2009 · Tribal Response Program, USEPA, CERCLA §128(a) 2010-2014 · Nonpoint Source Pollution, USEPA, CWA §319, 2013 · Hoopa Environmental Compliance Program, Tribal Compact Funds, 2012-2014 Completed Environmental Assessments for several different projects through many different funding agencies including the following: · Campbell Field Expansion Project, Phase I (6 Homes)& Phase II (10 Homes), HUD · New Hoopa Housing Authority Office Building, NAHASDA · Housing Improvement Project, Rehabilitations/New Acquisitions (17 Homes), HUD · Disaster Relief Initiative, Special Projects Rehabilitation (3 Tribal Buildings), FEMA · Section 184 Indian Home Loan Guarantee Program, Bank Environmental Review Requirement (7 Homes), HUD · Campbell Creek Treatment Plant Upgrade, USDA · Telescope Water Tank Replacement, USDA Eight years of experience navigating tribal government for the completion of travel requests, purchase requests, invoice payment, program budget approval/development, grant submittals, contracts etc. Eight years of experience working with, federal state and other regulatory agencies.
January 2015 - Present	Environemntal Director, <i>Yurok Tribe</i>

EDUCATION

1998	High School Diploma, Hoopa Valley High School
2006	Bachelor of Science, Environmental Science, First Nations Environmental Protection, Humboldt State University, Minors in Native American Studies & Art Studio Applicable Coursework: · Botany · Microbiology · Environmental Science & Engineering · Calculus (for Biology, Science & Natural Resource Majors) · Forest Ecology

- Soil Science
- Technology & the Environment
- Wildland Hydrology & Watershed Management
- Limnology
- Native American Perspectives in Natural Resources
- Organic Chemistry
- Environmental Justice
- Federal Indian Law
- Applied Geographic Information Systems (GIS)
